

**1. Go to eSolar Air App and click „Inverter“ > „Remote“ or with the SAJ O&M App**

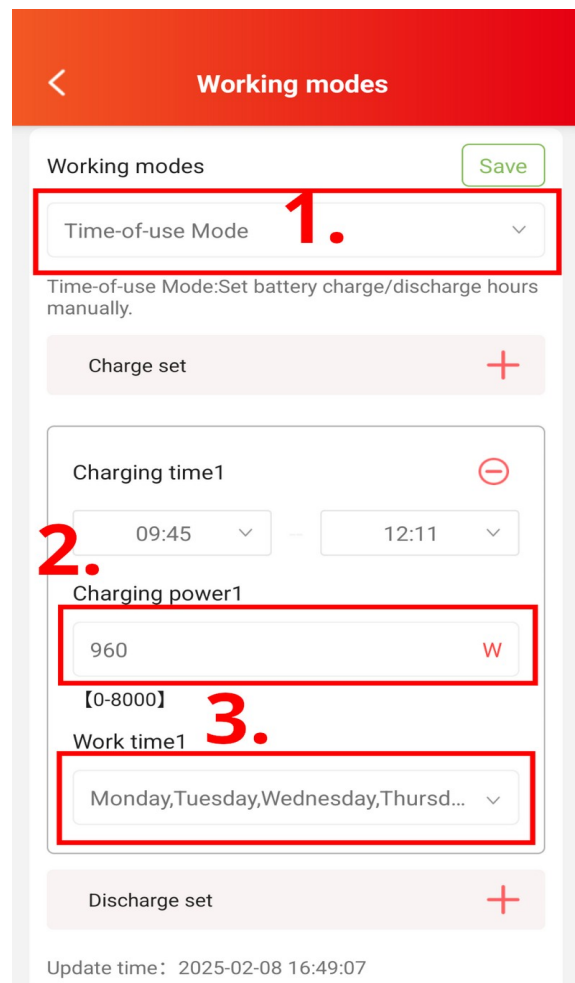

**2. Go to „Working modes“**

### 3. Click Arrow

### 4. Set „Time-of-Use“ > Set „Charing power (max 25% of Standard Charging Power), > select all weekdays

### 5. Important!

Set Time from „00:00 – 23:59“

then click „Save“.

Now you can charging the Battery from Grid when you want, with the Home Assistant Switch „SAJ Charging Control“
